Culture is truly significant; it represents the creative expression of real people and the way they view the world. Some of the most amazing experiences in life are captured in art, music and food and the way they bring people together. Our focus is on showcasing the best tastes and talents both Perth and the Mid East have to offer. So if it's not sourced locally, then it comes straight out of the Mid East. We exist to break stereotypes, unite people and share modern mid east culture through great food, drink, music and art. Let's share this experience.

In Hummus We Trust.
